INDEPENDENT AUDITORS' REPORT

County Commissions
Buchanan County, Missouri

Report on the Audit of the Financial Statements

Qualified and Unmodified Opinions

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Buchanan County, Missouri (the County) as of and for the year ended December 31, 2021, and the related notes to the basic financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Qualified Opinion on the Aggregate Discretely Presented Component Units

In our opinion, except for the effects of the matter discussed in the "Basis for Qualified and Unmodified Opinions" section of our report, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the aggregate discretely presented component units of the County, as of December 31, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions on the Governmental Activities, Major Funds and Aggregate Remaining Fund Information

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the County as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified audit opinions. The financial statements of the Buchanan County Tourism Board and the Regional Emergency Medical Services Authority were not audited in accordance with Government Auditing Standards.

Matter Giving Rise to Qualified Opinion on Aggregate Discretely Presented Component Units

The Buchanan County Tourism Board, which is 24.7% of total assets, 0.0% of total liabilities, 26.8% of net position, 12.8% of total revenues and 11.9% of total expenses of the aggregate discretely presented component units, was audited under the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The amounts by which this departure would affect the assets, liabilities, net position, revenues, and expenses of the aggregate discretely presented component units have not been determined.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Buchanan County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Buchanan County, Missouri's ability to continue as a going concern for a reasonable period of time.

County Commissions
Buchanan County, Missouri

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, schedule of changes in net pension asset/liability and related ratios – Missouri Local Government Employees Retirement System, schedule of employer contributions – Missouri Local Government Employees Retirement System (LAGERS), share of the collective net pension liability – County Employees Retirement Fund, schedule of employer contributions – County Employees Retirement Fund, and schedule of changes in the County’s total other postemployment benefits liability, related ratios and notes as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management’s discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County’s basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, except for the effect on the supplementary information of the matter described in the Basis for Qualified opinion paragraph above, the supplementary information listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2022, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Buchanan County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

**BUCHANAN COUNTY, MISSOURI
RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL
FUNDS TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2021**

Amounts reported for governmental activities in the statement of net position are different because:

Ending Fund Balances - Total Governmental Funds:	\$ 28,999,826
Certain revenues are not available to pay for current year expenditures and therefore are reported as unavailable revenue in the governmental funds.	75,834
Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of those assets is capitalized and shown at cost, net of accumulated depreciation. This is the amount of net capital assets reported in the statement of net position.	28,782,120
Pension related assets and deferred outflows are not due and available to be used as current period resources and therefore are not reported in the governmental fund statements. These amounts include:	
Net Pension Asset	17,185,716
Pension Related Deferred Outflows	3,213,459
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:	
Long-Term Debt	(2,648,223)
Net pension liabilities and pension related deferred inflows are not due and payable in the current period and therefore are not reported in the governmental fund statements. These amounts include:	
Net Pension Liability	(3,870,690)
Pension Related Deferred Inflows	(10,596,119)
Other post employment benefit (OPEB) liabilities and related deferred outflows and deferred inflows are not due and payable in the current period and therefore are not reported in the governmental fund statements. These amounts include:	
Total OPEB Liability	(837,527)
OPEB Related Deferred Outflows	88,644
OPEB Related Deferred Inflows	(147,003)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the Internal Service fund are reported with governmental activities in the statement of net position.	<u>1,196,471</u>
Total Net Position of Governmental Activities	<u><u>\$ 61,442,508</u></u>

YEAR ENDED DECEMBER 31, 2021

Amounts reported for governmental activities in the statement of activities are different because:

Net Changes in Fund Balances - Total Governmental Funds:	\$ 4,438,809
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period:</p>

Depreciation Expense	(3,544,946)
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>

BUCHANAN COUNTY, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Buchanan County, Missouri have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below:

A. Financial Reporting Entity

Buchanan County, Missouri (the County), is a first-class county located on the northwestern border of the state and operates under a commission form of government. Commissioners representing the eastern and western districts are elected every four years. In addition, a presiding commissioner is elected at large every four years. Elected officials are responsible for the operations of certain County offices including the assessor, collector, treasurer, clerk, auditor, sheriff, public administrator, prosecuting attorney, recorder, and the circuit court with its various divisions.

The County's financial reporting entity has been determined in accordance with government accounting standards for defining the reporting entity and identifying entities to be included in its basic financial statements. These standards identify the County's financial accountability for potential component units as the primary, but not only, criteria for inclusion. The County is financially accountable if it appoints a voting majority of a potential component unit, or there is a potential for the potential component unit to provide specific financial benefits to or impose specific financial burdens on the County. The County's financial reporting entity consists of the County (the primary government), and its component units. The County has no blended component units. The component unit column in the government-wide financial statements presents the financial data for the County's discretely presented component units as discussed below.

The Buchanan County Tourism Board, dba: the St. Joseph Convention & Visitors Bureau (Tourism Board) was established by Buchanan County voters in the spring of 1993 with the purpose of "advertising and promoting tourism in Buchanan County, Missouri." The state of Missouri provided authorization for any first class counties to impose a tourism sales tax to promote tourism within the state. The County approved a one-tenth of one cent sales tax in the spring of 1993, which finances the Board. The County has oversight responsibility and control over the activities of the Board. The Tourism Board's financial statements are prepared under the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Complete financial statements of the Tourism Board may be obtained directly from their office at 911 Frederick Ave, St. Joseph, Missouri 64501.

A. Financial Reporting Entity (Continued)

The Regional Emergency Medical Services Authority (REMSA) began operations with the County on July 1, 2014 with the purpose of providing emergency medical services for the benefit of the citizens of the County. The County approved a one-fourth cent sales tax to support operation of REMSA at which time they began doing business as Buchanan County Emergency Medical Services. REMSA's most recent fiscal year-end was December 31, 2021. Complete financial statements of REMSA may be obtained directly from their office at 5010 Fredrick Ave, St. Joseph, Missouri 64501.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. Government-wide statements report, except for County fiduciary activity, information on all of the activities of the County and its component units. The effect of interfund activity has been eliminated from the government-wide statements but continues to be reflected on the fund statements.

Governmental activities, which are normally supported by taxes and governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds include other Special Revenue funds. The combined amounts for these funds are reflected in a single column in the fund-level balance sheet and statement of revenues, expenditures, and changes in fund balances. Detailed statements for nonmajor funds are presented with combining fund statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements, except for the Tourism Board, are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due.

Property taxes, sales and use taxes, interest associated with the current fiscal period, and certain state and federal grants and entitlements are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Road and Bridge Fund accounts for the operations and maintenance of roads and bridges within the County. Financing is provided by a special road and bridge tax levy.

The Law Enforcement Sales Tax Fund accounts for the use of the County's Law Enforcement Sales Tax which is to be used to provide law enforcement services within the County.

The Pandemic Relief Fund accounts for the Federal coronavirus funding received by the County.

The Levee Repair Sales Tax Fund accounts for the use of the County's ¼ cent sales tax, imposed for a period of four years, which is to be used for construction and repairs to Missouri River levees.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Capital Improvement Sales Tax Fund accounts for the use of the County's Capital Improvement Sales tax which is used for various capital projects and economic development within the County.

The Ambulance Sales Tax Fund accounts for the use of the County's ¼ cent sales tax which is used to fund ambulance operations in the County.

Internal service funds account for the cost and claim amounts related to the County's health insurance.

Custodial funds are used to report fiduciary activities that are not required to be reported in pension or OPEB trust funds, investment trust funds, or private purpose trust funds.

D. Budgetary and Budgeting Accounting

The County Commission adopts an annual budget for all funds. Appropriations lapse at year-end, but may be re-appropriated in the following fiscal year. Departments in the General Fund, whose budgets are approved by the County Commission, may not legally exceed their budgets at the department level without County Commission approval but may exceed budgets at the line-item level, which is below the department level. The Special Revenue Funds may not legally exceed their budgets at the fund level without County Commission approval, but may exceed budgets at the line-item level, which is below the fund level.

E. Cash and Investments

The County's investment policy permits investment in prime money market instruments and securities such as U.S. Government obligations, certificates of deposit, demand, and savings accounts. Investments are stated at cost, which approximates fair value.

F. Cash and Cash Equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

G. Receivables/Unavailable Revenues

GASB Statement No. 33 groups nonexchange transactions into the following four classes, based upon their principal characteristics: derived tax revenues, imposed nonexchange revenues, government mandated nonexchange transactions, and voluntary nonexchange transactions.

BUCHANAN COUNTY, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Receivables/Unavailable Revenues (Continued)

The County recognizes assets from derived tax revenue transactions (such as sales taxes) in the period when the underlying exchange transaction on which the tax is imposed occurs or when the assets are received, whichever occurs first. Revenues are recognized, net of estimated refunds and estimated uncollectible amounts, in the same period that the assets are recognized, provided that the underlying exchange transaction has occurred. Resources received in advance are reported as unearned revenues until the period of the exchange.

The County recognizes assets from imposed nonexchange revenue transactions (such as property taxes, licenses and permits, and fines and forfeitures) in the period when an enforceable legal claim to the assets arises or when the resources are received, whichever occurs first. Revenues are recognized in the period when the resources are required to be used or the first period that use is permitted. The County recognizes revenues from property taxes, net of refunds and estimated uncollectible amounts, in the period for which the taxes are levied.

Intergovernmental revenues, representing grants and assistance received from other governmental units, are generally recognized as revenues in the period when all eligibility requirements, as defined by GASB Statement No. 33, have been met. Any resources received before eligibility requirements are met are reported as unavailable revenues.

H. Interfund Transactions

During the course of normal operations, the County has transactions between funds, including expenditures and transfers of resources to provide services and construct assets. Legally authorized transfers are treated as operating transfers and are included in the results of operations of the governmental funds.

I. Capital Assets

Capital assets, which include land, buildings and improvements, equipment, infrastructure assets (e.g., roads and bridges), and construction in progress are reported in the governmental activities column in the government-wide statements. Capital assets are defined as assets with a cost of \$5,000 or more. Capital assets are recorded at historical cost if purchased or constructed, or at estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the total acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Improvements are depreciated over the remaining useful lives of the related capital assets.

NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

Depreciation on all assets is computed using the straight-line method over the following estimated lives:

Buildings and Improvements	15 to 40 Years
Machinery and Vehicles	5 to 10 Years
Furniture and Equipment	5 to 15 Years
Infrastructure	10 to 50 Years

J. Interfund Receivables and Payables

Short-term amounts owed between funds, if any, are classified as "Due to/from other funds."

K. Compensated Absences

County policies permit full-time employees to accumulate sick pay benefits and vacation time based on the number of years of service. Various county employees earn compensatory time for overtime hours worked during the month. Accumulated sick, vacation, and compensatory time payable is recorded when incurred in the government-wide financial statements.

L. Long-Term Obligations

In the government-wide financial statements long-term debt obligations are reported as liabilities. Premiums and discounts received on debt issuances are included with the related obligation balance. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

M. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The more significant estimates used are the useful lives of capital assets used in the calculation of depreciation, other postemployment benefit liabilities and net pension assets, liabilities, deferred inflows and deferred outflows.

N. Fund Balances

In the fund financial statements, governmental funds report the following fund balance classifications:

Nonspendable – Legally or contractually required to be maintained. Not in spendable form, including but not limited to, inventory, prepaid, supplies, and long-term receivables. Such constraint is binding until legal or contractual requirements are repealed or amounts become spendable.

Restricted – Externally imposed constraints, including but not limited to, creditors, granters, contributors, and constraints by law and regulations. Such constraints are binding unless modified or rescinded by external body, laws, or regulations.

Committed – Specific purpose imposed by formal action of the Board of Commissioners. Such constraint is binding unless modified or rescinded by the Board of Commissioners.

Assigned – Constrained by the Board of Commissioners, elected office holder, or Department head's expressed intent. Includes all remaining amounts not classified in governmental funds, except the general fund. Such constraint is binding unless modified or eliminated by the Board of Commissioners, elected office holder, or Department head, whoever made the assignment.

Unassigned – All amounts not included in other fund balance classifications. The General Fund shall be the only fund to report positive unassigned fund balance. All other governmental funds may report negative unassigned fund balance.

The County's policy is to use restricted resources first when expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance.

BUCHANAN COUNTY, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Net Position Presentation

GASB requires the classification of net position into three classifications defined as follow:

- (1) Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- (2) Restricted Net Position – This component of net position consists of amounts which have external constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The County first utilizes restricted resources to finance qualifying activities.
- (3) Unrestricted Net Position – This component of net position consists of amounts that do not meet the definition of “net investment in capital assets”, or “restricted.”

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County’s policy to consider restricted net position to have been depleted before unrestricted net position is applied.

P. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and will *not* be recognized as an outflow of resources (expense/expenditure) until then. The County has two items that qualify for reporting in this category. The items are deferred outflows for pensions and OPEB and are reported in the government-wide statement of net position. See Note 8 for more information on the deferred outflows for pensions and Note 9 for the deferred outflows for OPEB.

BUCHANAN COUNTY, MISSOURI
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has three types of items, one of which arises under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported in the governmental fund balance sheet. The governmental funds report unavailable revenue from two sources: property taxes and grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

In the County's government-wide statements, the property tax receivables remain as a deferred inflow of resources under the full accrual basis of accounting and will become an inflow in the year for which they are levied. The County's government-wide statements also report deferred inflows for pensions and OPEB related items. See Note 8 for more information on the deferred inflows for pensions and Note 9 for more information on the deferred inflows for OPEB.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

NOTE 3 CASH AND INVESTMENTS

A. County Cash Deposits with Financial Institutions

At December 31, 2021, cash balances were comprised of demand deposits and certificates of deposit. As required by law, the depository banks are to pledge securities in addition to Federal Deposit Insurance Corporation (FDIC) insurance to equal the amount on deposit at all times. At December 31, 2021, the carrying amount and bank balance of the County's deposits are \$90,264,373, and \$89,346,073, respectively. Of the bank balance, \$19,970,907 was insured by federal depository insurance, \$69,375,166 was collateralized, and \$-0- was not collateralized.

B. Regional Emergency Medical Services Authority (REMSA – a Discretely Presented Component Unit)

At December 31, 2021, the carrying amount and bank balance of REMSA's deposits are \$3,659,061 and \$3,735,694, respectively. Of the bank balance, \$101,545 was insured by federal depository insurance and \$3,634,149 was collateralized.

C. Tourism Board (a Discretely Presented Component Unit)

The Tourism Board does not have a formal policy for custodial credit risk; however, it must follow requirements set forth in state statutes. The carrying amount and bank balances of the Tourism Board's deposits are \$702,023 and \$795,934, respectively, at December 31, 2021. Of the bank balance, \$107,642 was insured by federal depository insurance, and \$688,292 was collateralized.

At December 31, 2021, the Tourism Board had the following investments, maturities, and credit ratings:

	<u>Fair Value</u>	<u>Credit Rating</u>	<u>Investment Maturity</u>
Investments:			
Money Market Mutual Funds	\$ 69,703	Aaa	<1 Year
Fixed Income Investments:

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

C. Tourism Board (a Discretely Presented Component Unit) (Continued)

Interest Rate Risk

The Tourism Board does not have an officially adopted policy related to interest rate risk; however, state statute requirements limit investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The statutes state that investments will not have a maturity greater than five years from the date of purchase.

Credit Risk and Concentration of Credit Risk

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk is measured using credit quality ratings of investments in debt securities as described by nationally recognized rating agencies such as Standard & Poor's and Moody's. The Tourism Board does not have an officially adopted policy related to credit risk and the amount that may be invested in any one issuer. At December 31, 2021, the Tourism Board was not exposed to concentration of credit risk.

Fair Value

The Tourism Board categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs such as third-party pricing services for identical assets; Level 3 inputs are significant unobservable inputs. The Tourism Board has the following recurring fair value measurements as of December 31, 2021:

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>
Investments:			
Money Market Mutual Funds	\$ 69,703	\$ 69,703	\$ -
Fixed Income Investments:

Personal Property	<u>402,146,122</u>
Total	<u><u>\$ 1,384,993,016</u></u>

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied no later than October 31 and are due and payable at December 31. All unpaid taxes levied by October 31 become delinquent January 1 of the following year. Property taxes levied on October 31, 2021, are revenues for the budget year ended December 31, 2022, and accordingly, any amounts collected for these taxes prior to year-end have been recorded as deferred inflows of resources in the accompanying statements.

The property tax receivable represents property taxes levied on or before October 31, 2021, not collected. The County also acts as an intermediary in the collection and distribution of property taxes to other entities. This activity is included in the Taxes and Penalties custodial fund.

NOTE 8 PENSION PLANS

A. Missouri Local Government Employees Retirement System

(1) Plan Description – The County’s defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiemployer, statewide public employee pension plan established in 1967 and administered in accordance with RSMO. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of six trustees elected by the members and one trustee appointed by the Governor. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

(2) Benefits Provided – LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after five years of credited service. Employees who retire on or after age 60 (55 for police and fire) with five or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of five years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

	<u>2020 Valuation</u>
Benefit Multiplier	2.00% for life
Final Average Salary	5 Years
Member Contributions	0%

Benefit terms provide for annual postretirement adjustments to each member’s retirement allowance subsequent to the member’s retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

(3) Employees Covered by Benefit Terms – At December 31, 2021, the following employees were covered by the benefit terms:

	General	Police	Total
Retirees and Beneficiaries	163	54	217
Inactive, Nonretired Members	100	48	148
Active Employees	147	69	216
Total	410	171	581

NOTE 8 PENSION PLANS (CONTINUED)

A. Missouri Local Government Employees Retirement System (Continued)

- (4) Contributions – The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer do not contribute to the pension plan. Employer contribution rates are 9.9% (General) and 13.7% (Police) of annual covered payroll.
- (5) Net Pension Asset – The employer’s net pension asset was measured as of June 30, 2021, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of February 28, 2021.
- (6) Actuarial Assumptions – The total pension liability in the February 28, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75% wage inflation; 2.25% price inflation
Salary Increase	2.75% to 6.75% including wage inflation
Investment Rate of Return	7.00%, net of investment expenses

The healthy retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubG2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The preretirement mortality tables used were 75% of the PubG-2010 Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and females of Police, Fire and Public Safety groups.

Mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scale to the above described tables.

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of a five-year actuarial experience study for the period March 1, 2015 through February 29, 2020.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table.

(6) Actuarial Assumptions (Continued) –

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Equity	39.00 %	4.16 %
Fixed Income	28.00	1.05
Real Assets/Real Return	33.00	2.09

(7) Discount Rate – The discount rate used to measure the total pension liability was 5.5 % and 7.25% for the February 28, 2021 and February 29, 2020 actuarial valuations, respectively. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

(11) Payable to the LAGERS Pension Plan – At December 31, 2021, the County had a payable outstanding amount of contributions of \$146,932 due to the pension plan.

B. County Employee Retirement Fund

(1) Plan Description – In addition to LAGERS, benefit eligible employees of the County are provided with pensions through County Employees' Retirement Fund (CERF) - a mandatory cost-sharing, multiemployer defined benefit pension plan established in 1994. Laws governing CERF are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes. As such, it is CERF's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of CERF is vested in the Board of Directors consisting of eleven members. CERF issues a publicly available Annual Financial Report that can be obtained at www.mocerf.org.

NOTE 8 PENSION PLANS (CONTINUED)

B. County Employee Retirement Fund (Continued)

- (2) Benefits Provided – CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after eight years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of eight years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost of living adjustments, not to exceed 1%, are provided for eligible retirees of survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature.
- (3) Contributions – Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining eight years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. The County had elected to pay the required 4% for anyone hired between February 25, 2002 and January 31, 2003. Employees hired between January 31, 2003 and December 31, 2008 pay 2% and the County pays the remaining 2%. Employees hired after December 31, 2008 pay the required 4% contribution.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations,
- \$20 on each merchants and manufacturers license issued,
- \$6 on each document recorded or filed with county recorders of deeds, with an additional \$1 on each document recorded,
- Three sevenths of the fee on delinquent property taxes, and
- Interest earned on investment of the above collections prior to remittance to CERF.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

(3) Contributions (Continued)

For the CERF measurement year ended December 31, 2020, the County collected and remitted to CERF contributions of \$829,765.

(4) Net Pension Liability – At December 31, 2021, the County reported a liability of \$3,870,690 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2020, and was based on the most recent actuarial valuation of CERF’s independent actuary as of December 31, 2019 projected forward to December 31, 2020, and financial information of the Plan as of December 31, 2020.

The County’s proportion of the net pension liability was based upon the County’s actual share of contributions to the pension plan relative to the actual contributions of all participating employers for CERF’s plan year and measurement date of December 31, 2020. The County’s proportion was 2.4892%, which decreased by 0.03% from the percentage used to allocate the liability as of the prior year.

There were no changes in benefit terms during the CERF plan year and measurement date of December 31, 2020, that affected the measurement of total pension liability.

(5) Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – For the year ended December 31, 2021, the County recognized pension expense of \$386,638. The County reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

(6) Actuarial Assumptions – The total pension liability for the December 31, 2020 actuarial valuation was based on the most recent actuarial valuation as of January 1, 2020, projected forward to December 31, 2020, which is the date of measurement for GASB Statement No. 68 purposes, and was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Compensation Increase	2.91% - 11.05%
Discount Rate	7.25%
Inflation	2.70%
Investment Rate of Return	7.25%

Pub-2010 General Annuitant Table, no adjustments for males and 110% scaling for females. Future mortality improvements assumed using 75% of the MO-2018 scale.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2014 to December 31, 2018.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate rates of expected future real rates of return (expected returns, net of pension plan investment expense and tuition) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

		Long-Term Expected Geometric Return	<u>8.69 %</u>

(7) Discount Rate – The discount rate used to measure the total pension liability was 7.25% for the actuarial valuations completed for December 31, 2020 and 2019. The projection of cash flows used to determine the discount rate assumes contributions from plan members will be made at the current statutory rates and that contributions from employers will be made based on the Plan’s current revenue sources (various fees and penalties collected by the counties). Such revenue was assumed to increase at the rate of 1% per year. This increase assumption has been used by the Plan in prior funding status projections. Historically, revenue increase has averaged more than 1% per year. Based on the assumptions, the pension plan’s fiduciary net position was projected to be available to pay all projected future benefit payments of current plan members. The projections covered an 80-year period into the future. The long-term expected rate of return on the Plan’s investments was applied to projected benefit payments.

(8) Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the County’s proportionate share of the Net Pension Liability calculated by using the discount rate of 7.25%, as well as what the County’s proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

NOTE 9 OTHER POSTEMPLOYMENT HEALTHCARE BENEFITS

A. Plan Description

The County offers postemployment health insurance to retired employees. The benefits are provided through a single employer defined benefit postemployment healthcare plan administered by the County. The eligible group of participants consists of a closed group of employees hired prior to 2006 who are eligible to continue in retirement by paying the required premiums. General employees are eligible for normal retirement at age 60 with five years of service (55 for police) or early retirement at age 55 with five years of service (50 for police). The health insurance benefit provides the same coverage for retirees and their dependents as for active employees and their dependents.

The plan is a single employer plan with no plan investments and is funded on a pay-as-you-go basis.

GASB Statement 75, Accounting and Financial Reporting by Employer for Postemployment Benefits Other Than Pensions, requires governments to account for other postemployment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense on the statement of activities when a future retiree earns their postemployment benefit liability is recognized on the statement of net position over time.

NOTE 10 LONG-TERM DEBT (CONTINUED)

D. Conduit Debt

The County has issued taxable industrial revenue bonds to provide financial assistance to private business for economic development. Under related agreements in forming the Buchanan County Industrial Development Authority (IDA) in 2014, the County will lease the projects to the businesses and the corresponding rental receipts shall be applied to pay the debt service on the bonds. The bonds and interest thereon are special obligations of the of a community improvement district and a tax increment revenue district in Saint Joseph, Missouri and thus shall not constitute obligations of the County. Accordingly, the bonds are not reported as liabilities in the accompanying basic financial statements. As of December 31, 2021, there is one series of taxable industrial revenue bonds outstanding, with a principal amount payable of approximately \$13.6 million.

NOTE 11 INTERFUND TRANSACTIONS

Transfers during the year ended December 31 were as follows:

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ 358,343	\$ -
Road and Bridge Fund	-	134,000

NOTE 12 CONTINGENCIES

The County is a defendant in several lawsuits that arise from time to time in the ordinary course of business. The County believes it has substantial defenses in these matters. Although the outcome of these lawsuits is not presently determinable, in the opinion of County management and legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the County.

The County participates in several federal and state programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the County may be required to reimburse the grantor government. As of December 31, 2021, the County believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual government funds, or the overall financial position of the County.

NOTE 13 SELF-INSURANCE

The County limits exposure to various types of risk by obtaining commercial insurance for property and general liability claims. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

The County has established internal service funds to account for and finance its self-insured health insurance program. The Health Insurance Fund provides coverage for up to a maximum of \$75,000 for each claim at which point stop loss insurance will cover the rest. All funds of the County with salary expenditures participate in the self-insurance program and make payments to the Health Insurance fund based on estimates of the amounts needed to pay prior and current-year claims and to establish net position sufficient for catastrophic losses. The claims liability in this fund at December 31, 2021 is based on the requirement that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Changes in claims liability during 2020 and 2021 are as follows:

<u>Year</u>	<u>Beginning Year</u>	<u>Claims Incurred</u>	<u>Payments/ Adjustments</u>	<u>End of Year</u>
2020	\$ 305,124	\$ 2,853,240	\$ 2,958,343	\$ 200,021

NOTE 14 TAX ABATEMENTS

The County promotes and utilizes the following economic development incentives and activities:

Enhanced Enterprise Zone Benefits – The County, per RSMO 135, participates in the “Enhanced Enterprise Zones” program designed to ease the financial burden on growing businesses. Eligible facilities can receive a minimum of 50% abatement of property taxes for improvements made to real property for a period of 10 years from assessment of improvements.

Missouri Chapter 100 bonds – The enacting authority for Chapter 100 tax abatements is Chapter 100, RSMO. Generally, a Chapter 100 project transfers property to a municipality for a specified number of years.

An Industrial Development Plan must be approved by the County. The County can then issue bonds to facilitate the financing of a variety of projects including offices, warehouses, distribution facilities, and industrial plants. Land, buildings, fixtures and machinery may also be financed using the bond proceeds. The use of these bonds provides the ability to abate a percentage of real and/or personal property tax. In addition to debt payment, there may be negotiated payment in lieu of taxes. A sales tax exemption when purchasing equipment, machinery and other eligible purchases may also be provided. Each agreement will vary from project to project.

Chapter 353 Tax Abatement – The enacting authority for Chapter 353 tax abatements is Chapter 353, RSMO. Chapter 353 is a tax abatement whereby property transfers through a redevelopment corporation and can last up to 25 years. For example, in a 25-year abatement, 100% of real property taxes may be abated, except for the base property taxes for the land, for the first 10 years. In the subsequent 15 years, 50% of all taxes may be abated. Chapter 353 tax abatements may involve negotiated PILOTs. Often, a project will seek eligibility for tax abatement by seeking to redevelop a blighted area. Each agreement will vary from project to project.

Tax Increment Financing – The Authority is subject to sales tax abatements through various programs implemented by Buchanan County and the City of St. Joseph, Missouri, which include Tax Increment Financing (TIF). The enacting authority for TIF is Chapter 99, RSMO. A TIF project diverts tax revenue, above an established base level of taxes, to a special allocation fund that allows certain project costs to be reimbursed for up to 23 years. Most commonly, the two sources of funds that are diverted are Payments In Lieu of Taxes (PILOTs) and Economic Activity Taxes (EATs). Generally, 100% of PILOTs (real property based taxes) and 50% of EATs (sales, utilities, and earnings based taxes) are diverted. A basic requirement, as outlined in Section 99.810.1 (1), RSMO, is: “The redevelopment area on the whole is a blighted area, a conservation area, or an economic development area, and has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of tax increment financing.” Each agreement will vary from project to project.

SCHEDULE OF EMPLOYER CONTRIBUTIONS – MISSOURI LOCAL GOVERNMENT
EMPLOYEES RETIREMENT SYSTEM (LAGERS) (CONTINUED)
YEAR ENDED DECEMBER 31, 2021**

Valuation Date:	February 28, 2021
Notes:	The roll-forward of total pension liability from February 28, 2021 to June 30, 2021 reflects expected service cost and interest reduced by actual benefit payments.
Methods and Assumptions Used to Determine Contribution Rates:	
Actuarial Cost Method	Entry Age Normal and Modified Terminal Funding
Amortization Method	A level percentage of payroll amortization method is used to amortize the UAAL over a closed period of years. If the UAAL (excluding the UAAL associated with benefit changes) is negative, then this amount is amortized over the greater of (i) the remaining initial amortization period or (ii) 15 years.
Remaining Amortization Period	Multiple Bases from 9 to 15 Years
Asset Valuation Method	5-Year Smoothed Market; 20% Corridor
Inflation Assumption	2.75% Wage Inflation; 2.25% Price Inflation
Salary Increases	3.25% to 6.55% Including Wage Inflation
Investment Rate of Return	7.00%, Net of Investment Expenses
Retirement Age	Experienced-Based Table of Rates that are Specific to the Type of Eligibility Condition
Mortality	<p>The healthy retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubG 2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The pre-retirement mortality tables used were 75% of the PubG-2010 Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and females of Police, Fire and Public Safety groups.</p> <p>Mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scale to the above described tables.</p>

BUCHANAN COUNTY, MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2021

NOTE 1 BUDGETARY INFORMATION

General Budget Policies: The County adopts calendar-year budgets for all funds by a commissioners meeting in December of the previous year. These budgets are prepared on the modified accrual basis of accounting.

Based on a process established by the County Commissioners, all departments of the County submit requests for appropriations each year. After review, analysis and discussion with the departments, the proposed budget is presented to the County Commissioners for review. The commission holds public hearings and a final budget must be prepared and adopted no later than December 31.

The overall budget is prepared by fund, function, and department. The legal level of budgetary control – the level at which expenditures may not legally exceed appropriations – is the fund level. Budgets may be amended during the year with proper approval.

NOTE 2 DEFINED BENEFIT PENSION PLANS – CHANGES IN ASSUMPTIONS

The following changes were reflected in the valuation performed on behalf of the County Employee Retirement Fund (CERF) for the year ended December 31:

NOTE 2 DEFINED BENEFIT PENSION PLANS – CHANGES IN ASSUMPTIONS (CONTINUED)

- Mortality was changed from 105% of the 1994 Group Annuity Mortality Table set back 0 years for men and 0 years for women. Based upon experience observed during the most recent five-year period study, it appears that the current table provides for an approximate 13% margin for future mortality improvement. The new mortality used was the healthy retiree mortality tables, for postretirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for postretirement mortality, were the RP-2014 disabled mortality table for males and females. The preretirement mortality tables used were the RP-2014 employee's mortality table for males and females. Both the postretirement and preretirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

Police Division

2021

- Amortization period was changed from multiple bases from 10 to 15 years to multiple bases from 9 to 15 years.
- Inflation changed from 3.25% wage inflation; 2.50% price inflation to 2.75% wage inflation; 2.25% price inflation.
- Salary increases changed from 3.25% to 6.55% including wage inflation to 2.75% to 6.75% including wage inflation.
- Mortality tables changed from RP-2014 tables to 115% of the PubG-2010 tables.

2020

- Amortization period was changed from multiple bases from 11 to 15 years to multiple bases from 10 to 15 years.

2019

- Amortization period was changed from multiple bases from 12 to 15 years to multiple bases from 11 to 15 years.
